

MOHAMMED FAZAL SHAIKH

FULL STACK DEVELOPER

Mumbai, India 400009 • +91 9967826317 • shaikhfazal004@gmail.com •
LinkedIn: <https://www.linkedin.com/in/fazal-shaikh-555404195>

Professional Summary

Computer Engineering student with a strong foundation in web development and problem-solving, experienced in building web applications and ML-based systems. Proficient in Python, JavaScript, and web technologies, with hands-on experience in developing real-world projects such as automated timetable generation and intelligent surveillance systems. Eager to contribute and grow in fast-paced tech environment.

Education

Bachelor of Engineering: Computer Engineering, 06/2026
M.H. Saboo Siddik College of Engineering - Mumbai, Maharashtra
GPA: 8.6

ICSE: 06/2022
ST. PETERS SCHOOL- Mumbai, India
Final Grade- 88%

HSC- 06/ 2024
WILSON COLLEGE - Mumbai, India
+ MHT-CET Grade: 89 PERCENTILE

Skills

• Frontend Technologies: React.js, Next.js, HTML5, CSS3

• Programming Languages: Python, JavaScript, TypeScript, SQL

• Machine Learning & Data Science: Scikit-learn, TensorFlow, Pandas, NumPy

• Developer Tools & Platforms: Git, GitHub, Jupyter Notebook, Kaggle, Prisma, Supabase, Vercel

• Backend Technologies: Node.js, FastAPI, REST API Development

• Databases: MySQL, PostgreSQL

• Data Analysis & Visualization: Microsoft Excel, Power BI, Tableau

• Responsive web design

Project Experience

MCP [Model Context Protocol] Server / AI Tool Integration Platform

- Architected and developed a Model Context Protocol (MCP) server using Python/TypeScript, enabling AI assistants and LLM applications to securely interact with external tools, APIs, databases, and services through a standardized interface.
- Engineered MCP tools, resources.
- Implemented secure authentication, authorization, logging, and exception handling to control tool access and ensure reliable communication between MCP clients, AI models, and external services.
- Designed the system with extensibility and interoperability in mind, allowing MCP-compatible clients and AI agents to discover available capabilities and invoke tools programmatically.

Agricultural Loan Recommender System

Built a recommendation system to assist banks and farmers by suggesting suitable loan schemes using Machine Learning algorithms (Random Forest, Decision Trees) in Python.

Virtual Meet Summarizer

Created a tool that summarizes online meeting transcripts using Natural Language Processing (NLP) techniques and Python libraries like spaCy and Transformers

Zerodha Trading Platform

Developed a functional clone of the Zerodha trading platform, focusing on frontend UI/UX and basic stock interaction features using HTML, CSS, JavaScript, and React.

Airbnb

Built a web-based Airbnb replica with features like property listing, search, and booking functionality using React.js and Firebase for authentication and storage

AI Driven Unified Investment Guidance Platform

- Developed unified AI platform for processing large-scale financial data — structured (market data) and unstructured (news sentiment, social media) — as core engine for multi-asset investment analysis.
- Built predictive ML models with LSTMs and NLP sentiment analysis to forecast market trends and assess cross-asset risks, enabling real-time signal generation.
- Applied portfolio optimization algorithms including Modern Portfolio Theory and Deep Reinforcement Learning to create automated, risk-adjusted investment strategy recommendations.

Experience

. Intern, 03/2024 - 12/2024

Hertzofts Technologies - Mumbai, India

- Analyzed problems and worked with teams to develop solutions.
- Gained hands-on experience in various software programs, increasing proficiency and expanding technical skills.

Intern at Ailos Cloud Solutions- Andheri, Mumbai

- Developed an MCP (Model Context Protocol) server to enable AI applications to securely discover and interact with external tools, APIs, and services through a standardized interface.
- Implemented custom MCP tools, API integrations, request validation, and error handling, enabling automated AI-driven workflows and seamless integration with external systems.

Certifications

- Complete Web Development Bootcamp (MERN Stack) – Apna College
- Data Structures & Algorithms in Java – Apna College
- Complete Web Development Course – Internshala
- Prompt Engineering – DeepLearning.AI (Credential earned)
- Java Fundamentals – Oracle Learning
- Completed multiple modules in AI, Cloud Computing, and Data Science
- Cisco Networking Academy- AI
- AWS Academy Cloud Foundations – Credential earned
- AWS Academy Cloud Operations – Credential earned
- AWS Academy Network Security – Credential earned
- 100 days of python – udemy
- Machine learning- udemy

Leadership & Extracurricular activities

Head Coordinator, Entrepreneurship Development Cell (EDC)

2025 – 2026

M.H. Saboo Siddik College of Engineering

Mumbai

- Led end-to-end execution of 4+ major events, managing logistics, speakers, participants, and event operations.
- Directed cross-functional teams of volunteers and coordinators to deliver entrepreneurship-focused events on time and within scope.

Campus Director, Hult Prize**2025 – 2026****M.H. Saboo Siddik College of Engineering****Mumbai**

- Spearheaded the Hult Prize campus round — one of the world's largest student entrepreneurship competitions.
- Coordinated with global Hult Prize organizers, managed team registrations, judging panels, and event delivery.

PR Member, Entrepreneurship Development Cell (EDC)**2024 – 2025****M.H. Saboo Siddik College of Engineering****Mumbai**

- Handled event promotions across social media channels and improved student engagement and participation.

School Prefect**2021- 2022****St. Peters School****Mumbai**

- Selected as a School Prefect, representing the student body and supporting school administration in student activities and events.

Awards

- Secured 1st Position at IIGC Hackathon - MHSSCE
- Secured 1st position in Idea Presentation[IEEE]- MHSCCE
- Secured 1st position in Paper Presentation - MHSSCE
